### **DETAILED ACTION**

The following is an examiner's statement of reasons for allowance:

Claims 1, 17 and 33 identify the uniquely distinct step of: specifying, within said table file, one of a plurality of different backup utilities for each of said filesystem listed in said table file, said table file including different backup utilities being specified.

In contrast, the closest prior art, Luong et al. (US Patent 6,684,220 B1) discloses an intelligent backup and restore system for generating a database of data resident on a primary storage device of a computer system. The database having information associated with the data resident on the primary storage device includes a list of programs installed on the primary storage device and a list of logical hard drives together with all files on the logical hard drives, but fails to anticipate or render the above cited limitations obvious.

Thus, claims 1, 4-17, 20-38 are allowable over the prior art of record because the prior art of record neither renders obvious nor anticipate the combination of claim elements in light of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
